WELCOME TO SMALL SHIP CRUISING WITH ALBATROS EXPEDITIONS

Albatros Expeditions is part of Albatros Travel Group - a family-owned company with over 35 years of experience in global adventure travel, founded by Søren Rasmussen.

Albatros Travel Group offers a true family company's stability, care, and personal touch.

Since 1986, we at Albatros Travel Group have been successfully guiding our adventurous clients to the most remote regions on our planet. We have been pioneering many of the world's most exciting itineraries and offering trips to the most unique and pristine environments to people from all over the world.

As a Scandinavian company, we offer Nordic hospitality, quality, environmental, and safety standards.

We have a true passion for active exploration and offer high quality experiences on each voyage. Our team is constantly tracing routes on the map to

bring forth new exciting destinations.

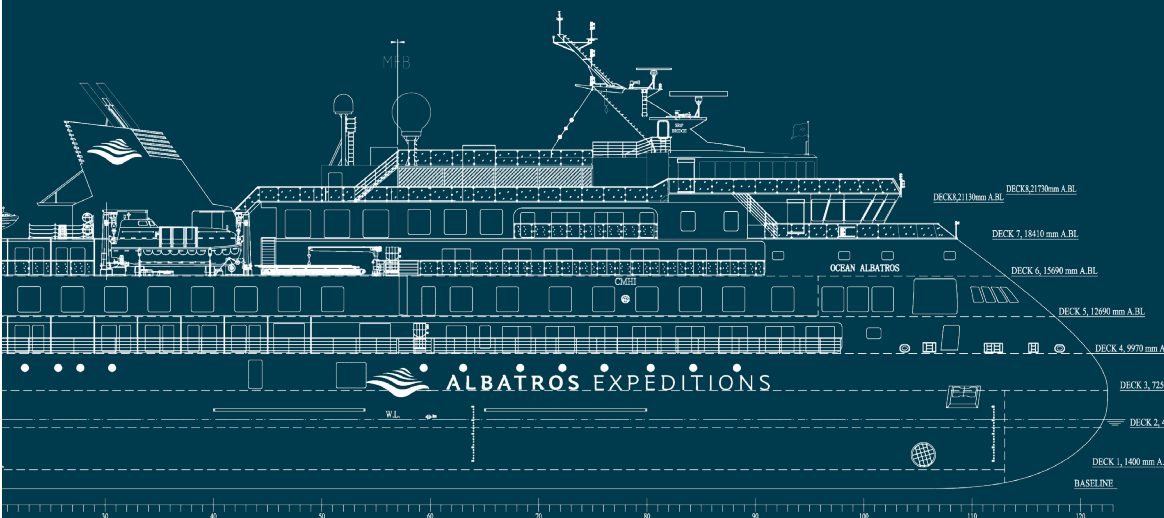

We aim to be the leader in the travel sectors we operate in. We do this by owning, controlling, and managing our key assets like ships, hotels, and shore programs.

On the following pages, we are pleased to introduce two of the most advanced expedition ships at sea with their award-winning facilities and itineraries, Ocean Victory and Ocean Albatros. You might think our vessels look a little different - that is because they are.

Our brand new vessels have taken passenger comfort and Nordic hospitality in polar cruising to the next level. Expedition cruising has never been more attainable yet sustainable.

Thank you for making us your Polar Expedition providers of choice.

- Your friends at Albatros Expeditions.

WHY CHOOSE ALBATROS EXPEDITIONS?

With our state-of-the-art eco-conscious vessels, we offer sustainable small ship expeditions, inspired by our Nordic heritage. We are explorers ourselves, and since 1986 we have created life changing memories for our guests while offering unbeatable value. Our guests, staff and crew are welcomed to our family.

DID YOU KNOW?

Albatros Expeditions is part of the family-owned Albatros Travel Group, established in 1986 by Søren Rasmussen, a biologist and expedition leader. Stemming from a passion for remote regions, the travel group now operates globally, covering destinations from Greenland to Africa and the polar regions.

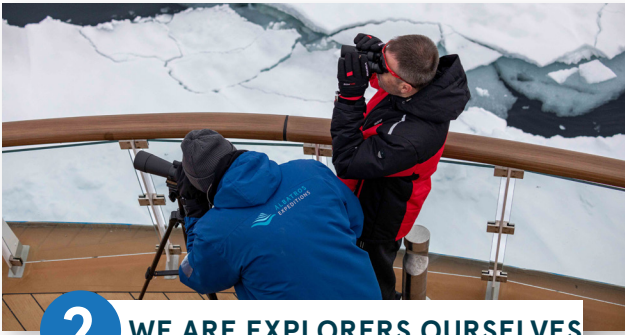

1

UNBEATABLE VALUE

Experience our meticulously designed expedition fleet that offers a perfect blend of modern-day comfort, innovation and small touches of luxury.

Our premium adventures come with indulgent touches and a focus on quality without unnecessary frills, ensuring an unforgettable expedition journey.

2 WE ARE EXPLORERS OURSELVES

Albatros Expeditions comprises seasoned explorers with a shared passion for unique experiences. With a strong emphasis on safety, we create opportunities for guests to immerse themselves in landscapes, connect with wildlife, and embrace diverse cultures. Additionally, we leverage the collective expertise of our sister companies within the Albatros Travel Group, providing extensive knowledge in destinations such as Greenland, Africa, and beyond.

4 WELCOME TO OUR FAMILY

As a family-owned company, we prioritize strong family values, which serve our foundation. With a long-term perspective, we make strategic choices that ensure sustained growth that is driven by a passion that extends beyond financial gains, allowing us to adapt to evolving customer needs swiftly. We aim to create a familiar and welcoming atmosphere onboard through our diverse and inclusive staff, who are not only our colleagues but also our community and family.

6 SUSTAINABILITY AT OUR CORE

Albatros Travel Group has always been a pioneering force in sustainable travel, recognised for our longstanding commitment to responsible exploration. This is exemplified through our support of the non for profit organisations that have a global and local positive impact on the areas we operate in. Our fleet's leadership in environmental standards while prioritising sustainability in every detail and making ethical choices across our operations for a more sustainable future.

3 LIFE CHANGING MEMORIES

We consistently strive to exceed guest expectations, providing exceptional onboard experiences, which is proven by our industry leading customer satisfaction and review scores. Our expeditions offer opportunities for our travelers to form lasting connections, supported by our team of guides, who provide a unique blend of education and adventure, enhancing the immersive experience of exploring the polar regions and creating life-changing memories.

5 OUR NORDIC HERITAGE

We emphasise Nordic affordable luxury through minimalist, meticulously designed products focusing on employing eco-friendly practices, engaging with local communities, and aiming to minimise our carbon footprint. Additionally, the Nordic-inspired food experience and friendly, casual atmosphere onboard foster a sense of community and that famous "hygge" feel. As Greenland experts, we offer an extensive selection of cruise and land programs.

7 STATE OF THE ART VESSELS

Albatros offers an unforgettable expedition experience, with opportunities for relaxing in jacuzzis and saunas while enjoying intimate wildlife encounters against the backdrop of breathtaking natural beauty. Our state-of-the-art ships, Ocean Victory and Ocean Albatros, lead the industry in expedition travel, featuring advanced technology, unparalleled comfort, and a solid commitment to environmental sustainability.

OUR FLEET

OCEAN VICTORY

ALL THE COMFORTS OF MODERN LUXURY

CRUISING – With a total of 93 comfortable and spacious staterooms for our guests, all with an unobstructed panoramic view of the ocean, most with their own balcony, two restaurants, a wellness area including a heated swimming pool, two jacuzzis, spa, Albatros Nordic Bar and a modern lecture lounge, this ship truly caters for all the needs of today's explorers.

A VESSEL SPECIFICALLY DESIGNED TO OPTIMIZE THE EXPEDITION EXPERIENCE – The patented X-bow offers a more comfortable sailing journey and helps to prevent passengers' discomforts, particularly when crossing the notorious Drake passage! It also helps to keep our speed and planned expedition schedule on rough seas. As a side benefit, the X-bow design means our guests are able to enjoy an unobstructed view when standing on the observation platforms, and ultimately brings them closer to birds and wildlife.

COMFORT CLASS MEANS LESS NOISE &

VIBRATION – The Ocean Victory & Albatros are 'comfort class' certified vessels, meaning they operate with the industry's lowest noise and vibration levels.

ONE OF THE MOST ENVIRONMENTALLY

FRIENDLY VESSELS – Albatros Travel received its first sustainable travel award back in 1995, before most others even knew what 'sustainability in travel' meant. The Ocean Victory builds on Albatros Travel's history of innovation in sustainable travel. The vessels are also 'clean-ship-certified' and carry tier-3 compliant engines. Not only does this make them the least polluting engines in the world, but also results in lower emissions than traditional expedition vessels. The engines of both ships also only use light fuels (MGO).

OUR FLEET

OCEAN ALBATROS

EXPERIENCE THE HEIGHT OF CONTEMPORARY LUXURY CRUISES

– With 94 expansive and cozy staterooms designed for our guests, each affording an uninterrupted, sweeping vista of the sea. The majority of these accommodations are accompanied by private balconies. Delight in our two exquisite dining establishments, unwind in the wellness enclave featuring a heated pool, dual jacuzzis, sauna, and spa. Additionally, revel in the presence of several bars, alluring lounges, and a state-of-the-art lecture hall. This vessel ensures the utmost satisfaction for the requirements of present-day adventurers.

OCEAN ALBATROS IN ANTARCTICA & THE ARCTIC FROM 2023

– Ocean Albatros, just like its sister vessel, Ocean Victory, is a revolutionary and stylish cruise ship that combines the advantages of a small expedition vessel with the stability and comfort of a larger cruise ship. With

a maximum capacity of 175 passengers, this compact design ship offers an intimate atmosphere with great personal service featuring a 1:8 guide-to-guest ratio – one of the best in our industry. It is easy to avoid crowds and queues, but at the same time, this vessel offers the stability and smooth ride of a bigger ship with all the luxury comforts of today.

THE TECHNICAL DETAILS

– With the highest Polar Code 6 and Ice Class 1A, Ocean Victory & Albatros are the ideal vessels for small-ship expedition cruising due to their sturdy construction and X-Bow®- Infinity class. It provides high stability in rough weather and allows for the smoothest movements on high waves, and a Solas classification including all 'Safe Return to Port' safety features. The vessels are part of a brand-new generation of low-energy vessels, with four diesel and two electro engines, all controlled electronically to optimize speed and fuel consumption.

SERVICE & WELLNESS

ENJOY A TREATMENT AT THE POLAR SPA AFTER TRAINING IN THE GYM WITH A VIEW OF THE ICY LANDSCAPE... A FEAST FOR YOUR EYES AND BODY.

After an unforgettable expedition during the day, our guests can relax in the heated swimming pool and two jacuzzis. Alternatively, they can enjoy being pampered in the Polar Spa with some unique Albatros-only treatments, like a Midnight Sun or a Fire and Ice Massage.

For the active explorer, we offer a fully equipped gym with some of the best views in the world, meanwhile shoppers can enjoy the Albatros Boutique.

Throughout the expedition, a selection of lectures, screenings and activities will keep your brain engaged and entertained.

Of course, onboard, we have several bars and a large selection of drinks, featuring wine tasting menus developed in partnership with French wine producer and expert Gerard Bertrand - a leader in producing biodynamic farmed wines.

BARS & SPECIALITY RESTAURANT

The Nordic Lounge brings warm Nordic hospitality to the Arctic and Antarctic. Offering a large choice of drinks, including wine-tasting menus from Gerard Bertrand, this is the perfect place to relax after an unforgettable day and make new friends... or like we say in Denmark: *Hygge*.

Our speciality restaurant on Deck 8 features unforgettable views and a unique way of food preparation - on hot lava stones.

LECTURE LOUNGES – What makes a good expedition? It is a combination of its activities and the experiences onboard the ship, as well as ashore.

At Albatros Expeditions, we are honored to have a variety of experts in our expedition team, from climatologists and geologists to renowned photographers, all eager to share their adventures and knowledge with our guests.

— OUR FACILITIES —

LOUNGES & RELAXATION

OBSERVATION LOUNGES – Celebrate the dream polar adventure, engage in conversation and relax while admiring the icy landscape of the polar regions. At our Nordic Observation Lounge, we aim to create a fun and enjoyable atmosphere with varied cocktails and drinks, appetizers and small events.

LIBRARY – Honoring the great explorers, the Library allows for an adventure within an adventure. Here you can find sagas, narratives and practical information on the polar regions, in various languages and subjects. From encyclopedias of the polar wildlife and fauna to narrations of the many challenges faced by the first expeditions, this is the perfect location for expanding your mind while we sail.

— OUR FACILITIES —

OBSERVATION PLATFORMS & BIRD'S-EYE VIEW

ENRICH YOUR EXPEDITION WITH SPACIOUS OBSERVATION AREAS - The Ocean Victory and Albatros vessels prioritize the ultimate expedition encounter through well-located observation decks. These decks afford extensive, unimpeded spaces that guarantee the finest vantage points for witnessing polar landscapes.

Our ships redefine the expedition journey with swift zodiac embarkation procedures and exceptional observation zones, inclusive of distinctive hydraulic platforms and ample observation deck expanse. Guests are invited to relish the breathtaking Deck 9 viewing platform along with forward-positioned hydraulic observation platforms.

These features seamlessly bring our guests into closer proximity to the grandeur of unspoiled nature by providing enhanced, more intimate, and wholly unobstructed panoramas of icebergs, avian life, and marine giants, allowing them to immerse themselves in the splendor of untouched wilderness. These unique features make the Infinity class vessels stand out from any other expedition ships. The combination of zero-speed stabilizers, dynamic positioning ("virtual anchoring"), and 5 zodiac loading platforms mean that our guests can be in their zodiacs faster than any other ship of comparable size. Not only will guests have more time to enjoy exploring off the ship, but also we can react faster to unexpected wildlife encounters.

"The next infinity class vessels delivered from a series of newbuilds, offer a one-of-a-kind and complete immersive experience. Technologically advanced, with a unique design and beautiful European interiors, these vessels remain true to what Expedition Cruising should be all about."

- Søren Rasmussen, Founder & Owner, Albatros Expeditions

— OUR FACILITIES —

A FEAST FOR YOUR SENSES

OUR CAREFULLY DESIGNED MENU IS CURATED FOR THE BEST DINING EXPERIENCE, WITH A FOCUS ON FRESHNESS AND DIVERSITY.

Onboard Ocean Victory and Ocean Albatros, you will find kitchen professionals and chefs who take great pride in creating gastronomic experiences, satisfying your tastebuds. When the first explorers began their undertakings, they had little choice and even less variety in their nourishment options in their diet. Dining at the some of the remotest parts of the world was not a delicacy, but a duty necessary for survival. Luckily for us, today is another story. Meals are served in our bright and spacious restaurants, surrounded by wonderful views.

Dinner always starts with delicious hot soups, cold cuts and crisp, fresh salads. Several choices of entrées are offered each evening. To accommodate different tastes and dietary requirements, guests can choose from a selection of meat, fish and vegetarian options.

After dinner, freshly prepared desserts, including ship-made ice cream or cakes... A great way to end a meal and satisfy any sweet tooth!

"The main restaurant on both Ocean Victory and Ocean Albatros provides a delightful blend of à la carte and buffet choices. Additionally, both ships boast a top-deck Panorama Restaurant, where guests can enjoy a delicious and exciting tasting experience with meals cooked directly at their table on hot lava rocks."

- Cæcilie Willumsgaard,
Board Member of Albatros Expeditions

ACTIVITIES

EXPEDITION EXPERIENCE

ACTIVITIES ON BOARD

Onboard the vessel excitement continues through a series of activities that will keep your mind and body entertained. From a visit to the captain's bridge, yoga and stretching, a slideshow presentation at the end of each voyage featuring the best-of picks of our photographer's shoots to the welcome and farewell cocktails... and even access to a digital visual journal free to all our guests after their voyage, containing the voyage log, species lists, photo gallery and more!

LECTURES & WORKSHOPS

Due to our passion for knowledge and the world around us, lectures are an essential part of Albatros Expeditions' voyages in the Polar Regions. These are vulnerable places due to the growing number of visitors and we therefore offer a broad range of enrichment lectures and workshops so our guests not only have transformative experiences but also learn about relevant topics such as wildlife, environment and history, navigation, photography, geology or glaciology, culture and much more!

ZODIAC CRUISES

Zodiac boats are not only used for shuttling guests to/from land. Zodiac cruising is a great way to venture out and get even closer to some of the magnificent sights during your voyage. It is also great for wildlife spotting and for taking in the dramatic sights from up close. The Zodiac boats are perfect for cruising around in the Polar Regions, giving you the chance to see the world from a new and spellbinding point of view.

POLAR PLUNGE

For the brave guests, the polar plunge is a beloved activity. Jump into the ice-cold water for a refreshing sensation with absolute bragging rights when returning home. The ship's crew and expedition team ensure the safety of the guests. All participants receive a polar plunge certificate to show off and proudly remember their bravery.

ACTIVITIES

OPTIONAL

PHOTOGRAPHY LECTURE

We always have a dedicated expedition photographer onboard to document the voyage and share their passion for photography through lectures and during landings and zodiac cruises. The Polar Regions are filled with mesmerizing landscapes and amazing wildlife; and the expedition photographer is available to help elevate your photographic capabilities to beautifully capture the magical moments of your voyage.

On certain voyages we also offer a Photography Program, enquire for details.

SNOWSHOEING*

(Antarctica Only)

Take in the most unimaginable landscapes and fresh air by joining our hiking program! These guided hikes are perfect if you want to enjoy active sightseeing surrounded by nature. At times this may include crossing streams, and hiking on uneven/rocky/hilly terrain.

Snowshoeing is an activity that allows you to hike across soft, powdery snow, reaching unique vantage points without the hassle of sinking into deep snow. Please note that this activity is only possible sometimes, weather permitting.

CAMPING*

(Antarctica Only)

Cuddled up in a warm, snug and weatherproof sleeping bag, listening to the sounds of distant whale blows, penguins' squeaks and shifting icebergs, Antarctic Open Air Camping with Albatros Expeditions is truly a memorable experience. Once we decide on the location within the set perimeter, you will level out your own spot in the snow, fix the base cover, insulated pad, and warm sleeping bag - and get ready for a night like no other.

KAYAKING*

Glide through the waters and take in the royal grace of the icebergs, see the varied birds, seals and maybe even whales in their natural habitat, and paddle through incredible scenery under the supervision of experienced guides who will ensure your safety during each outing, weather permitting, of course.

** Additional fee applies, activities are subject to weather conditions, itinerary, availability.*

OUR RESPONSIBILITY

AT ALBATROS EXPEDITIONS, WE RECOGNIZE OUR RESPONSIBILITY TO CONTRIBUTE POSITIVELY TO SOCIAL, ENVIRONMENTAL, AND ECONOMICALLY SUSTAINABLE DEVELOPMENT. WE WILL COMPLY WITH ALL APPLICABLE LAWS REGARDING HUMAN RIGHTS, THE ENVIRONMENT, AND CORRUPTION, AND APPLY INTERNATIONALLY RECOGNIZED PRINCIPLES WHEN LOCAL LAWS AND REGULATIONS SET LOWER STANDARDS.

Sustainability and eco-tourism have always been important aspects of the Albatros Travel Group identity. Our vessels, Ocean Victory and Ocean Albatros were built with consideration towards the environment and have the lowest carbon emission per passenger in the expedition cruise industry.

Albatros Expeditions is proud to be a supporting and active member of both the Association of Arctic Expedition Cruise Operators (AECO) and the International Association of Antarctica Tour Operators (IAATO). These two member organizations exist to advocate and promote the practice of safe and environmentally responsible private-sector travel to the Polar Regions. Members challenge each other to do better and have minimal impact on these fragile environments.

In effort to keep our oceans clean and as unpolluted as possible, we have initiated a green initiative onboard our Albatros Expedition cruises.

To reduce chemicals released into the ocean and lower the energy used onboard, the washing of towels and bed linens is reduced, and all laundry chemicals used are biodegradable. We only use phosphate free and eco-friendly cleaning products.

All single use plastic items, such as disposable cups, stirrers and straws have been eliminated, paper cups can be used when requested and only reusable mugs and regular glassware are used for BBQs and special events. Paper straws are available upon request. Instead of individual packages for condiments, yogurt, jam or butter, we provide small bowls and a butter pot for each table, unless health and safety regulations require otherwise.

Single use and plastic items in bathrooms have been replaced by wall-mounted dispensers to eliminate waste, and only biodegradable products are used. All garbage created in work areas is separated, and trash bins in the cabins can be requested to separate paper products. We are implementing recycling stations in key public areas for the use of our guests. We only serve sustainable seafood with the MSC (Marine Stewardship Council) logo to ensure the purchase of species approved as sustainable.

GIVING BACK TO OUR PLANET

ON OUR ALBATROS EXPEDITIONS CRUISES, WE ORGANISE ONBOARD FUNDRAISING PROGRAMS FOR PROJECTS THAT HAVE A GLOBAL OR LOCAL POSITIVE IMPACT ON THE AREAS WE OPERATE.

THESE PROGRAMS INCLUDE RAFFLES, AUCTIONS AND DONATIONS.

Our expedition team will present the organisations we are collaborating with on your voyage. Visit our website to learn more about these organisations and our CSR program.

ANTARCTICA

An experience like nowhere else on Earth

AN EXTRAORDINARY ADVENTURE TO THE SOUTHERNMOST PART OF THE WORLD BRINGS FORTH COLOSSAL ICEBERGS, UNBELIEVABLE SEASCAPES, AND THE UNPREDICTABLE NATURE THAT POLAR EXPLORERS SPENT THEIR LIVES TRYING TO CONQUER.

TO EXPERIENCED TRAVELERS, ANTARCTICA IS THE CRÈME DE LA CRÈME WHEN IT COMES TO EXPLORING, NOT JUST BECAUSE OF ITS REMOTE LOCATION, ITS DIFFICULT ACCESS AND CHALLENGING TEMPERATURES, BUT ALSO BECAUSE IT IS THE ONLY NON-INHABITED CONTINENT ON OUR BELOVED PLANET. APART FROM SMALL RESEARCH STATIONS, THE CONTINENT IS EMPTY, EVEN NOW WHILE SOME OTHER AREAS OF EARTH ARE OVER POPULATED.

AN ICY WONDERLAND at the end of the world, which for many centuries wasn't explored and became the subject of admiration and obsession of the first world expeditioners, Antarctica only acquired its official name in the 1800s, a Romanized version of its Greek title, which actually means 'opposite to the North'.

For some experienced travelers, Antarctica is the *crème de la crème* when it comes to exploring the world, not just because of its remote location, its difficult access and challenging temperatures, but also because it is the only non-inhabited continent on our planet.

Antarctica has no indigenous population and there is no evidence that it was seen by humans until the 19th century. The many expeditions aiming to be the first to reach the South Pole in the 1900s provide us with stories of survival and wondrous adventures worthy of high acclaim in the history books.

Although this vast stretch of the planet remains the stuff of distant dreams for many, its mysterious nature, it is reachable due to the reduction in sea ice during the summer months, which our strong, ice-classed expedition vessels, *Ocean Victory* and *Albatros* can easily maneuver, ensuring we get close to the dramatic coastlines.

Zodiac cruising and shore landings are an important and considerable part of the planned itinerary, enabling all expedition guests to set foot on the Antarctic continent, as well as the many surrounding sub-Antarctic islands.

Can you visualize the splendor of the coldest continent appearing before your eyes? With its mighty tabular icebergs, it is a sight like no other. Not only will we cross the in-

famous Drake Passage, but we will also have the opportunity to witness the white shimmer of Antarctica looming on our horizon, the presence of wildlife multiplying by tens of thousands with many species of lively penguins, inquisitive seals, nesting birds and the spray of whales. The sub-Antarctic and Antarctic islands are a nature photographer's paradise.

Antarctica's beauty exceeds everything imaginable. Vastly different from the Arctic, 98% of the Great White Continent is covered in ice with glaciers, smooth ice-sheets and ice-shelves. Crisp white icebergs and deep blue seas, flank the barren, rocky coastlines, which are home to moss, lichens, liverworts and even two small flowering plants – the Antarctic pearl wart and Antarctic hair grass. The sub-Antarctic islands and Falklands have tundra-like landscapes.

Due to the harsh climate, there are no terrestrial mammals, yet a plethora of wildlife still call Antarctica home – at least in the warmer summer months when temperatures hover just above freezing! The prolific birdlife, penguin colonies and marine mammals, such as whales and seals, provide rewarding wildlife observation.

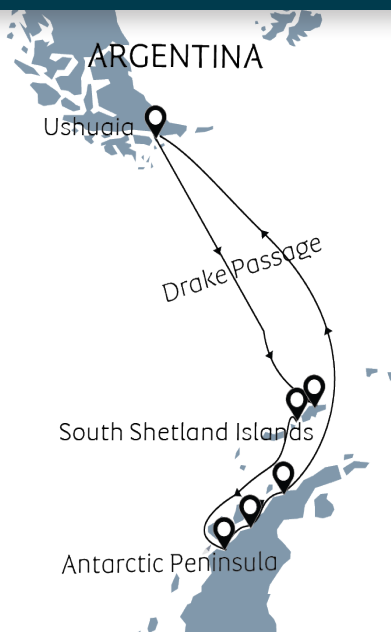

There will typically be crisp, autumn-like weather in Patagonia and the Falkland Islands, and near-freezing temperatures on the Antarctic Peninsula. Antarctica is a frozen desert where winds shape the surface of snow and ice, and average annual precipitation is only 10 cm.

By the time you return home from this remarkable journey, your perspective of our planet will have changed forever, and we are certain that the sights and experiences of this trip will find a special place in your heart.

SOUTH SHETLAND ISLANDS AND ANTARCTIC PENINSULA

STORIED AND SOUGHT FOR CENTURIES, the great White Continent beckons intrepid modern-day explorers from all over the world.

Experience incredible wildlife, stunning scenery and gigantic icebergs in action-packed days on the Last Continent on our classic 10-day voyage to the Antarctic Peninsula. Join us onboard our purpose-built, ice-class expedition vessels, Ocean Victory and Ocean Albatros to experience the majesty and wonder of the Earth's last frontier up close and personal. Our vessels enable us to get closer to nature, with a fleet of Zodiac landing craft, a team of experienced expert expedition guides, and the Antarctic Peninsula as our spectacular destination.

Our skilled Captain and Expedition Leader will work hard to maximise opportunities to explore the White Continent. While wind, sea and ice conditions will dictate the exact locations we will visit, we will make Zodiac landings to allow guests to set foot on land and experience penguin rookeries, research stations and historical sites.

HIGHLIGHTS

- Visit the Antarctic South Shetland Islands
- Explore the Antarctic Peninsula
- Top wildlife destination in the world with penguins, seals, whales and albatrosses
- Icebergs and glaciated mountains
- Many zodiac excursions and landings
- Strong expedition ship that enables access to remote areas
- Onboard activities while at sea
- Lectures, photo workshops and wildlife spotting

- Port and authority fees and taxes

JOIN OUR 13-DAY ANTARCTICA EXPLORER VOYAGE, our lengthiest Antarctica-only cruise, where we will discover the stunning scenery, glacier-clad peaks, and extraordinary wildlife of the Great White Continent.

This expeditionary escapade promises to be one-of-a-kind, as we will have no predetermined schedule – a genuine exploratory expedition, experiencing Antarctica as it was meant to be! With an extra two days to explore compared to our Classic Antarctic voyages, you will have even more time to experience the majesty of the White Continent. Dense pack ice forbids many ordinary vessels from reaching too far south, but with a PC6/1A ice rating, Ocean Albatros can access areas off-limits for most ships to explore deeper and experience more of the Earth's last frontier.

Don't miss out on this once in a lifetime opportunity!

INCLUSIONS

LOOKING FOR EXCITEMENT? A TRUE EXPEDITION EXPERIENCE? Departing Argentina's southernmost city of Ushuaia, we cross the mighty Drake Passage en-route to the South Shetland Islands, aiming to arrive on the afternoon of the third day of our voyage (weather permitting).

Continuing southward from the South Shetland Islands, we will delve deeper into the inlets and bays of the Antarctic Peninsula, entering the famous Gerlache Strait, where glittering ice cliffs and precipitous peaks rise straight out of the frigid water. Icebergs, glaciers, mountains and rugged snowfields characterise this wildly beautiful alien landscape.

From here, we will venture into the Antarctic Sound and the icy Weddell Sea, the vast icebound wilderness which defeated many early Antarctic expeditions. On no other journey can you experience so much pristine nature and varied wildlife in such a short time. Our skilled Captain and Expedition Leader will work hard to maximise opportunities to explore the White Continent. While wind, sea and ice conditions will dictate the exact locations we will visit, we will make Zodiac landings to allow guests to set foot on land and experience penguin rookeries, research stations and historical sites, and aim to Zodiac cruise in scenic areas filled with giant icebergs, whales and seals.

HIGHLIGHTS

- Visit the Antarctic South Shetland Islands
- Explore the Antarctic Peninsula
- The Antarctic Sound, Weddell Sea
- Icebergs and glaciated mountains
- Many zodiac excursions and landings
- Strong expedition ship that enables access to remote areas
- Onboard activities while at sea
- Lectures, photo workshops and wildlife spotting

LOOKING FOR EXCITEMENT? A TRUE EXPEDITION EXPERIENCE? Join this unique adventure where we have no set itinerary, and the rhythms of the sea, ice and wildlife will lead us to adventure.

From the 'mainland' of the Peninsula, we set off southwards, aiming for the Antarctic Circle at 66°33' South - a goal which has eluded many of the talented and driven explorers of yesteryear. Watch as the sun circles your vessel, never quite setting at this extreme latitude.

This voyage has no set itinerary beyond the aim to reach the Circle - however, we always aim to visit locations which showcase the best of Antarctica; wildlife sightings and weather conditions will decide the exact sites we visit as we move with the rhythms of nature; perhaps a well known penguin colony will draw us west, and whale and seal sightings will draw us back again!

INCLUSIONS

- 12-day cruise with accommodation in a shared double cabin of your choice with private facilities
- All Zodiac landings and excursions as per itinerary
- Expedition parka
- Rubber boots on loan basis
- English-speaking expedition team
- Guiding and lectures by our expedition leader and team

HIGHLIGHTS

- The aim to reach the 66°33" - the Antarctic Circle
- Top wildlife destination in the world with penguins, seals, albatrosses and whales
- Icebergs and glaciated mountains
- Many zodiac excursions and landings
- Small expedition ship that enables access to remote areas
- Onboard activities while at sea - lectures, quiz nights, workshops and wildlife spotting

ON THESE EXTRAORDINARY 18 or 19-DAY VOYAGES, follow in the wake of the courageous explorer, Sir Ernest Shackleton to Antarctica and the South Shetlands before heading via Antarctic Sound, Weddell Sea and Elephant Island to South Georgia. We will explore the Antarctic Sound with its mighty tabular icebergs and enter the Weddell Sea in search for Adelie and Emperor penguins.

Sailing onwards between South Georgia and Elephant Island offers a small glimpse into the passage made famous by Shackleton 100 years ago, when he navigated the 1300km course through open seas of the Drake Passage in an effort to save his stranded crew. Active research stations, former whaling stations, a visit to Shackleton's final resting place and visiting the largest King penguin colonies are on our agenda.

The sub-Antarctic and Antarctic islands are a nature photographer's paradise and we will attempt as many shore landings as possible per day, weather conditions permitting, bringing you close to Antarctica's beauty.

INCLUSIONS

HIGHLIGHTS

- The spectacular wildlife-rich islands of the western Falklands
- Local hospitality in Stanley
- Experience the wildlife paradise of South Georgia
- See the final resting place of legendary Antarctic explorer Sir Ernest Shackleton
- Soak up Porteño vibes in lively Montevideo, capital of Uruguay

JOIN A SPECTACULAR VOYAGE TO THE WILD ISLES OF THE SOUTH ATLANTIC. Embark on a 15 night voyage beginning in the beautiful Argentine city of Ushuaia, and voyage to the Falkland Islands (Islas Malvinas) and South Georgia, finishing in the vibrant Uruguayan capital of Montevideo.

Leaving Ushuaia, gateway to the South Atlantic, your expedition vessel will sail towards the Falkland Islands, a rugged windswept archipelago off the Patagonian coast. We will spend two days exploring the wild western isles of the Falklands, home to a huge variety of wildlife. Home to only a few hardy humans, the western Falklands hold vast colonies of penguins and albatross, as well as a host of seals, dolphins and often whales. From here, we will visit Stanley, the small but perfectly formed capital of the islands. With a distinctly British vibe, Stanley is a unique city offering a warm local welcome, along with excellent shopping, museums, and pubs.

From the Falklands, we will venture off the edge of the map to the saw-toothed peaks of South Georgia, a wildlife paradise which needs little introduction. Holding vast rookeries of nesting penguins, squabbling seals and screeching seabirds, this 'Galapagos of the South' must be seen to be believed. Marvel at this island's breathtaking wildlife, jaw-dropping scenery, and fascinating history.

After several relaxing days at sea, we will arrive in Montevideo, the hip bustling capital of Uruguay, where this spectacular voyage concludes.

THE ARCTIC

In search of the perfect Arctic Experience...

HAVE YOU ALWAYS DREAMED OF VISITING THE POLAR REGIONS? IF YOU'RE TOYING WITH THE IDEA OF FOLLOWING IN THE STEPS OF THE FIRST EXPLORERS AND FINALLY VISITING THESE REMOTE, SPELLBINDING LOCATIONS, WE WILL HELP YOU DECIDE WHERE TO GO.

UNFORGETTABLE LANDSCAPES, PRISTINE AIR CONDITIONS, CLOSE SIGHTINGS OF ARCTIC WILDLIFE SUCH AS POLAR BEARS, ARCTIC FOXES AND SEALS, OR THE OPPORTUNITY TO WITNESS THE MAGNIFICENT BEAUTY OF A GLACIER IN ALL ITS SPLENDOR ARE ONLY SOME OF THE REASONS WHY OUR GUESTS WOULD DREAM OF VISITING THE ARCTIC.

UNFORGETTABLE LANDSCAPES, pristine air conditions, close sightings of the Arctic wildlife such as polar bears, arctic foxes and seals, or the opportunity to witness the magnificent beauty of a glacier in all its splendor, are only some of the reasons why someone would dream of visiting the Arctic.

Other reasons to visit, often described by our guests, include the dream of seeing one of the most remote areas of the world, witnessing the current state of the Arctic regions, its species and wildlife and how they are adapting to the constant changes of the planet, learning about the history and exploring the rich and diverse cultures of the North, and of course, seeing the northern lights.

Whatever reason you are considering for visiting the Arctic, here at Albatros Expeditions we are happy to help you design your perfect adventure. Our team of experts in the field is constantly researching and developing new routes, programs and activities, to ensure we provide each of our guests with the dream holiday you will always look back on fondly.

Our Arctic expedition cruises touch three fascinating islands: Greenland – an enormous 2,175,600 km² island where 80% is an ice sheet fringed by fjords, Svalbard – an archipelago known for its large population of polar bears, and Iceland – an island of magnificent natural phenomena, featuring Reykjavik's exciting mini-metropolis.

From whale sightings to bird watching, Arctic wildlife can truly be admired from so many different vantage points. Our ex-

pedition cruise from Reykjavik to Kangerlussuaq will allow you to experience Iceland's immensity of impressive land and sea scapes, the ever-present Northern fulmar sea bird, and a multitude of otherwise inaccessible settlements in both Iceland and Greenland, including modern Inuit communities.

From around April to August, the summer's midnight sun bathes Greenland, Svalbard and Iceland in sunlight, increasing the average daily temperatures to comfortable, crisp conditions. If your journey continues to Oslo or Copenhagen, expect warmer days with a mixture of sunshine, rain and refreshing breezes.

During the short summer, wildlife such as reindeer are busy amassing energy for the icy polar winter. These are excellent months to visit if you enjoy photography and activities such as kayaking and hiking.

We also offer an early summer's cruise from the green islands of Scotland and North Atlantic to the Arctic islands of Jan Mayen and Svalbard. We will go north together with the migrating birds, and hopefully spot polar bears hunting from the sea ice in 24-hours of daylight.

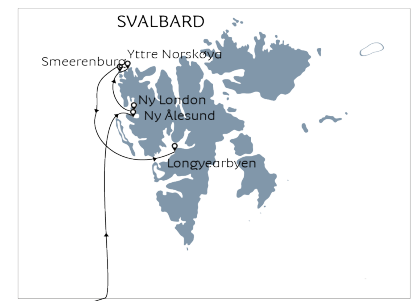

We hope that these pointers have helped you visualize where to set sail on your next journey. Whichever location you visit will be a remarkable memory you'll forever cherish, and who knows, may keep you coming back for more Arctic experiences.

EMBARK ON A 12-DAY ADVENTURE FROM ABERDEEN, SCOTLAND, ABOARD ALBATROS EXPEDITIONS' OCEAN ALBATROS. Cruising through the North Atlantic, witness the stunning landscapes of Orkney, Shetland, Faroe Islands, Jan Mayen, and Svalbard. Our journey begins in Aberdeen, known as Scotland's Granite City, and takes us to Lerwick in the Shetland Islands, followed by the Isle of Noss, home to a remarkable bird colony. Explore the Faroe Islands, starting with the village of Vágur and Tórshavn, known for its Norse heritage.

Venture into the unknown as we head to the remote Jan Mayen, Earth's northernmost volcano, abundant with seabirds and whale sightings. From Jan Mayen, set course for Svalbard, an isolated high Arctic archipelago with endless daylight and a vibrant wildlife rhythm. Encounter seabirds, seals, walrus, reindeer, and perhaps even the majestic polar bear, the King of the Arctic. Join us for an unforgettable expedition through the wild North Atlantic.

NORTHERN ODYSSEY: FROM SCOTLAND TO SVALBARD

ARCTIC DESTINATIONS

SVALBARD - THE LAST STOP BEFORE THE NORTH POLE

ENJOY THE IMMENSE BEAUTY of Svalbard on this Arctic adventure cruise among whales, walrus, polar bears and millions of sea birds. Experience high summer in the Arctic with Ocean Albatros.

One of the goals of this Albatros expedition is to sail as close as possible to the pack ice north of Svalbard - the polar bear's favorite summer residence. How far north we reach and the exact route up there will depend on the ice conditions. Additionally, we will visit several of the amazing locations along the west coast of Svalbard, all kept navigable by the warm Gulf Stream.

During the short summer, wildlife such as reindeer and polar foxes are busy amassing energy for the icy polar winter. The cliffs shimmer with life as every surface is populated with countless birds, and in a few months a new generation of Arctic sea birds are ready to leave their nests. Arctic guillemots, black guillemots and razorbills can be observed fishing in the wake of our ship. On several shores, the huge walrus enjoy the short Arctic summer as well as many whales and seals foraging along the edge of the pack ice and the coasts.

HIGHLIGHTS

- Reach 80° north when we cruise towards Sjuøyane, close to the pack ice
- Cruise close to the spectacular Alkefjellet and witness a miracle of nature with hundreds of thousands of birds
- Experience the polar desert landscape at Torrellneset
- See whales, walrus, seabirds, and other fantastic wildlife up close
- Excellent chances of seeing polar bears as well as their main prey, seals
- Zodiac cruises in the fjords and nature walk on the tundra

INCLUSIONS

- 8-day cruise with accommodation in a shared double cabin of your choice with private facilities
- Flights Oslo-Longyearbyen-Oslo (In 2024 only)
- Local transport in Longyearbyen on days 1 and 8 (In 2024 only)
- English-speaking expedition staff
- Zodiac landings
- Information briefings and lectures by the expedition team
- Special photo workshop
- Full board on the ship
- Complimentary house wine, beer and soda at dinner (selected labels and brands, served at our a-la-carte dinners)
- Free coffee, tea, and afternoon snacks on the ship
- Welcome and farewell cocktails
- Taxes, tariffs, and landing fees
- Digital visual journal link after the voyage, including voyage log, gallery, species list, and more
- From 2025, Optional Transfer Package Sold Separately

SVALBARD CIRCUMNAVIGATION

THE GOAL OF THIS ALBATROS EXPEDITIONS VOYAGE IS TO CIRCUMNAVIGATE SVALBARD - THE ULTIMATE BUCKET-LIST ADVENTURE!

During this outstanding adventure we will enjoy the immense beauty of Svalbard on this high Arctic voyage among whales, walrus, polar bears and millions of sea birds. We will explore northwest Spitzbergen, one of the largest protected areas in the Arctic, before we approach the polar bear's favorite summer residence. As we cruise to 80 degrees north, we will get as close as possible to the pack ice north of Svalbard - a constantly shifting wilderness of ice and sea which stretches to the North Pole and beyond.

While the many amazing locations along the coasts of Svalbard's islands are kept navigable by the warm Gulf Stream, how far north we reach, and the exact route of the voyage will depend on the whims of Mother Nature. This far north, everything is governed by the sea, wind and ice.

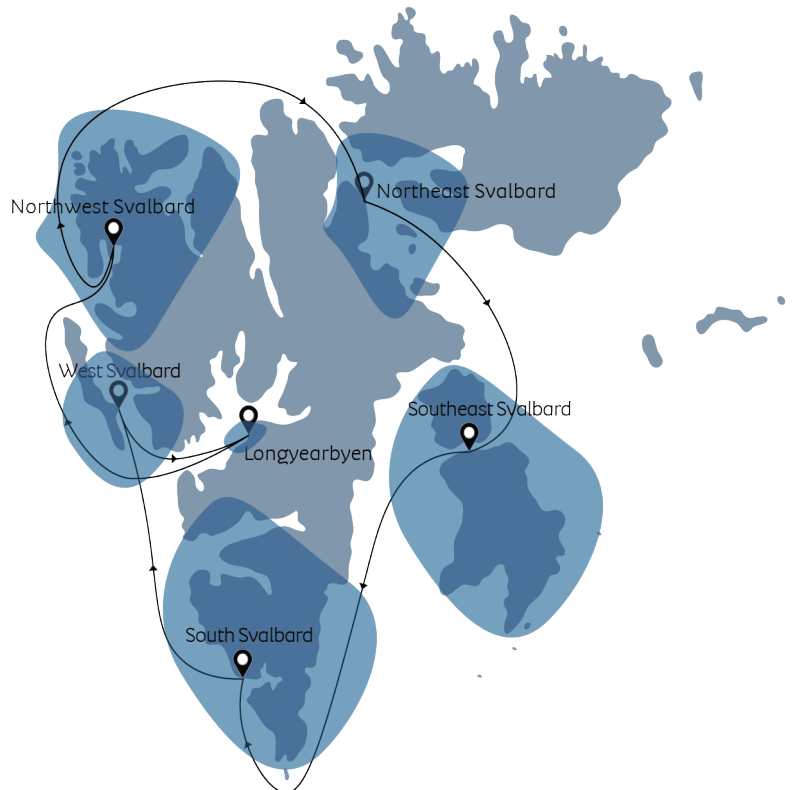

Onboard Ocean Albatros you will experience areas of Svalbard not easily accessible by any other means of exploration as we carefully navigate around this breathtaking archipelago. We will next visit extraordinary locations in the eastern part of Svalbard such as Edgeøya and regions such as Bellsund and Hornsund in southern Svalbard.

INCLUSIONS

- 10-day cruise with accommodation in a shared double cabin of your choice with private facilities
- English-speaking expedition staff

EMBARK ON AN EXPEDITION CRUISE FROM REYKJAVÍK TO KANGERLUSSUAQ, TRACING THE MARITIME ROUTE OF NORSE SETTLERS.

Our purpose-built expedition ship ensures comfort and style as we explore East, South, and West Greenland. Beginning with the rugged shores of East Greenland, immerse yourself in Tunumiit culture in Tasiilaq and Kuummiut, explore Greenland's modern history at Ikateq, and witness the icy grandeur of Sermilikfjord. Navigate Skjoldungen Fjord's glassy waters, pass through Prins Kristiansund strait, and venture into the fjords of South Greenland.

Explore the lush landscapes of South Greenland, visiting Erik the Red's former farmstead in Qassarsuk and the Norse Bishops' seat in Igaliku. Follow the coastline to Nuuk, Greenland's capital, blending modern amenities with a strong Greenlandic essence. Discover skyscrapers, museums, and boutique shopping alongside traditional wooden houses and unique sights like the only traffic lights in Greenland. Join us for an unforgettable journey through the diverse beauty of Greenland's landscapes and cultures.

IN THE WAKE OF ERIK THE RED - FROM REYKJAVÍK TO KANGERLUSSUAQ

ARCTIC DESTINATIONS

GREENLAND - DISKO BAY

TRAVELLING BY SEA is still the best way to experience Greenland. The places most worth seeing are situated along the dramatic coastline: small and colourful houses resting on the steep mountain sides, giant glaciers producing enormous icebergs, meanwhile whales and seals play in the sea. And only a few minutes' hike away you will find yourself totally alone, surrounded by wilderness.

Climate experts in our Expedition Team will lead a series of scientific lectures and discussions on board to shed light on one of the hottest topics of our time. We will utilize Zodiacs for beach landings, settlement visits and enjoy nature hikes to get close to receding glaciers.

We reach our northernmost point at the fabulous town of Uummannaq, before heading back south for a Zodiac cruise at Eqip Sermia, a giant retreating glacier. We will then head further on to Ilulissat, the Iceberg Capital of the World. Our last call will be at the small Inuit settlement of Sarfannguit.

HIGHLIGHTS

- Serenity & history of Disko Island
- Whale sightings, bird watching & arctic wildlife
- Cultural Kaffemik experience
- Visit Ilulissat, nicknamed the 'Iceberg Capital of the World'
- UNESCO-protected icefjord
- Close encounter with the calving Eqip Sermia glacier

EMBARK ON AN EXTRAORDINARY JOURNEY TO EAST GREENLAND, ONE OF THE WORLD'S WILDEST AND MOST REMOTE REGIONS, teeming with pristine beauty and captivating experiences. Witness the enchanting aurora borealis, vast glaciers, towering mountains, and Arctic wildlife on Earth's largest island.

Commencing in Reykjavík, Iceland, our unique itinerary encompasses three regions of East Greenland. Crossing the Denmark Strait, we explore the Ammassalik region, visiting Tasiilaq, the capital of East Greenlandic culture. Immerse yourself in Tunumiit culture, explore historical sites, and marvel at natural wonders. Moving to Scoresbysund, discover Ittoqqortoormiit, Greenland's most isolated community, and delve into Inuit traditions.

Continuing our voyage, we set course for the North East Greenland National Park, the world's largest protected area with no permanent residents. Encounter muskoxen on the tundra and beluga in icy fjords, exploring remote landing sites and glaciers on Zodiacs.

This expedition blends Inuit culture, mesmerizing landscapes, and encounters with charismatic Arctic wildlife, showcasing the best of the Arctic's vast wilderness in a thrilling and unforgettable voyage.

COMPLETE EAST GREENLAND

ARCTIC DESTINATIONS

GREENLAND SOLAR ECLIPSE 2026

EXPERIENCE NATURE'S DAZZLING SPECTACLE IN ONE OF THE WORLD'S MOST AWE-INSPIRING DESTINATIONS—totality in wild East Greenland on August 12, 2026. During this unique solar eclipse, our vessel Ocean Albatros will be anchored off the Blossville Coast, providing a perfect land-based vantage point for the 2-minute, 17-second totality. This extraordinary event marks the beginning of our grand expedition cruise from East to West Greenland, departing from Reykjavik.

Sailing south along Greenland's east coast, witness glaciers cascading from the Watkins Mountains, explore East Greenlandic culture in Tasilaq, and marvel at the fjords and glaciers of Skjoldungen. Navigate through the glacier-lined strait of Prins Christiansund, delve into South Greenland's ancient history at Erik the Red's farmstead, and experience the lush green landscapes that captivated Norse settlers.

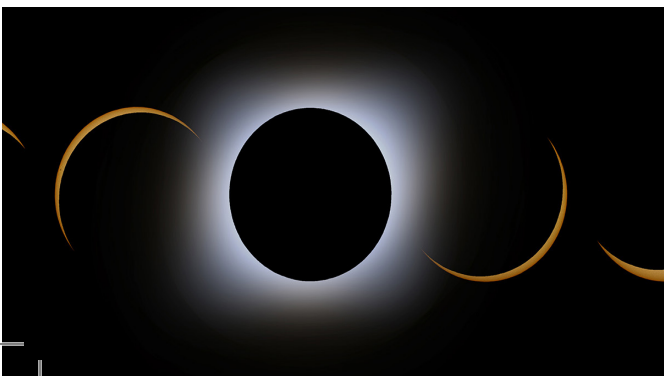

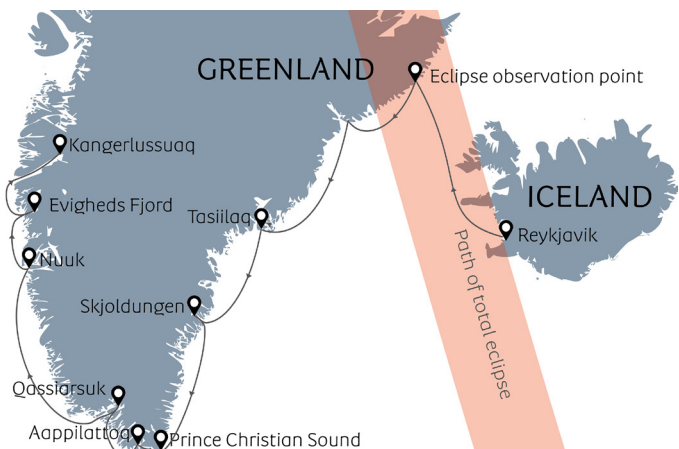

Continuing along the coastline, visit Nuuk, Greenland's capital, where tradition meets modernity. Explore Nuuk's unique atmosphere before charting a course for Evighedsfjord, the "Fjord of Eternity," surrounded by glaciers flowing from jagged peaks. After twelve days of exploration, disembark in Kangerlussuaq, concluding this extraordinary eclipse cruise aboard the revolutionary Ocean Albatros—a small ship offering comfort, modern technology, and stability in rough seas.

HIGHLIGHTS

- Witness earth's rare celestial spectacle in wild East Greenland
- Cruise along the dramatic east coast, unveiling glaciers and east Greenlandic culture
- Step into history of Erik the Red, while cruising South Greenland
- Explore Nuuk's unique blend of tradition and modernity in one of the world's smallest capitals
- Sail to the majestic Evighedsfjord

Albatros

albatros-travel.com

ALBATROS TRAVEL GROUP IS BRINGING SCANDINAVIAN QUALITY TO ADVENTURES AROUND THE WORLD

We are a Scandinavian-born, family-owned tour operator with a global wingspan. Our company was established in 1986 by Søren Rasmussen, who is chairman today and his wife and children all work in the company's management team. As a young biologist with an appetite for exploring the world, Søren traveled to Africa and was completely captivated by the fantastic wildlife, spectacular scenery and the unique cultural environment. He founded the company to share his passion for Africa and started by sending guests on tented safaris in Kenya.

Søren has always emphasized that all products should be built from scratch with deep attention to detail, leading to full control over the customer's travel experience. Today, this success is achieved through subsidiaries and by owning several hotels, bush camps, bus companies and cruise ships.

Even though safaris were initially the main product, when Albatros Travel started as a company in 1986, the product range quickly expanded into other exotic destinations around the world.

Another natural expansion was the establishment of a new office in Kenya where the fascination for travel and adventure all began. We have since expanded our Africa operation, under the brand Albatros Africa, with two more offices. One in Tanzania, where we have a tented bush camp and an office in South Africa, where we have 3 bush camps, a nature reserve with 4 country lodges and a bus company.

Additionally, we also started growing our core activities in the Nordics, where we are now the market leader within the group travel category in Denmark, Sweden, Norway and Finland. All of these operations are conducted out of our headquarters in Copenhagen, Denmark.

When Søren went to Svalbard in the Arctic region for the first time in 1995, he was completely taken with it. This resulted in extensive travelling and exploration of the Polar Regions, and eventually the acquisition of several hotels in Greenland and a bus company under the brand Albatros Arctic Circle. Søren also invested in five cruise ships suitable for polar exploration. In 2017, Albatros Expeditions was established to handle our cruise operations to these regions.

With the desire to expand the range of adventure travels and to reach new target groups, we came up with the idea of an extreme marathon on the Chinese wall, and thus "The Great Wall Marathon" was founded in 1999. This was the beginning of many more fascinating marathons around the world from our Albatros Adventure Marathons team.

Corporate Social Responsibility

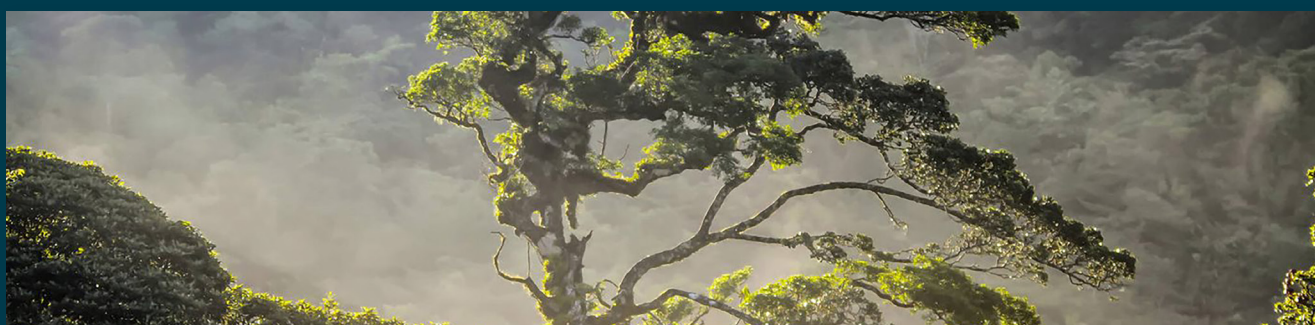

TRAVEL WITH HEART, MIND AND SPIRIT

Albatros Travel Group has always focused on sustainability and accountability. Since the beginning of the 90's, Albatros has experimented with sustainable forms of travel, which led to a focus on nature protection and responsible behavior on the destinations. Our approach is to focus on the areas, where we can make the greatest direct positive impact in the local regions. In return, we also receive goodwill from the local communities. We are not philanthropists, but we are dedicated to making a difference.

KARM MARG is an organization that operates an orphanage in Faridabad outside Delhi for 60 children aged 4 to 18. The organization attaches great importance to the children becoming self-reliant. The older children, together with approx. 100 women from the local area, learn how to make environmentally friendly products for selling. Albatros supports Karm Marg by buying their fabric bags as a gift for all our guests in India. Our guests do not visit this orphanage, but they are informed about the organization and can support it by donating their remaining rupees after the tour.

WELVERDIEND is a small village close to Albatros' two safari camps, Khoka Moya and Mantobeni. Many of the camp's employees come from the local village and we educate them within the field of hotel service. We work closely with the village and have several times supported the village schools with new books and electronic teaching equipment. We have also built a new school building with room for a library and a computer room.

ANIMAL WELFARE is a priority for Albatros. We are involved in various nature conservation and research projects. We wish for wild animals to roam freely in nature, and therefore our travels do not have excursions, or similar activities where wild animals would be used for unnatural entertainment. We are currently placing emphasis on the protection of endangered rhinoceros in the areas around our camps. Here, we provide support like extra ranger monitoring and patrolling. We are also co-founders of the first rhino orphanage.

AFRICA

Perfectly blending serenity, luxury, and action-packed adventures across Africa

ALBATROS OFFERS A DEEP, RICH AND IMMERSIVE EXPERIENCE IN UNTOUCHED NATURE WITH EPIC WILD-LIFE ENCOUNTERS AS PART OF ITS ONE-OF-A-KIND SAFARI EXPERIENCES. FROM OUR OFFICES IN KENYA, TANZANIA & SOUTH AFRICA, TOP DESTINATIONS ARE ACCESSIBLE OVER EASTERN AND SOUTHERN AFRICA.

Albatros Travel was one of the first Scandinavian Travel companies to provide safari experiences in Africa. Having established offices in Eastern & South Africa in 1996, Albatros Travel & Safaris has over 25 years of experience operating within Africa.

We have since developed our concepts to merge contemporary demands for high levels of comfort with a desire to experience unspoiled nature on its own terms. We own and operate several award-winning lodges in Southern and Eastern Africa.

HONEYGUIDE TENTED SAFARI CAMPS

Each boutique camp offers an authentic safari experience that underlies our concept; Closer to Nature.

Looking to minimize our environmental footprint and maximize the guest experience, all Honeyguide Camps are situated in unfenced areas open to the African wild. The Honeyguide brand offers a guarantee of quality and value for money.

Our camps have exclusive rooms with terraces facing endless nature. No noise or light pollution; instead, almost purely solar energy, bonfires, and attentively prepared food. Activities include safaris in open off-road vehicles and walking safaris with the most negligible impact on the environment and surroundings.

Mantobeni and Khoka Moya camps can be found in the Manyeleti Game Reserve that shares open borders with the world-famous Kruger National Park, while Honeyguide Ranger Camp can be found in Entabeni Safari Conservancy in the South African province of Limpopo and forms part of the Waterberg region's World Heritage "Waterberg Biosphere."

Our Zebra Nature Reserve & country lodges are located near Pretoria, where we also offer nature drives, as well as the opportunity to do Big 5 game drives at the nearby Dinokeng Game Reserve. These lodges are perfectly suitable for family activities.

Our Tarangire Camp, a glamorous luxury tented safari camp set in the astonishing wilderness of Tarangire National Park in Tanzania.

ALBATROS TRAVEL & SAFARIS

Our expertise lies not only in safaris but culture, wildlife, and adventure. Whether it is one of our existing tour packages through our Beyond Touring booking platform or a tailor-made tour to fit your personalized requirements, we offer reliable day tours, adventure experiences, and bus transfers which are great options for round or packaged trips.
